A GUIDE TO

consent2go

Consent2Go is our system for administering events, excursions, incursions and camps. It is a digital platform that easily enables you to keep your child's personal and health records accurate, and for you to provide consent for attendance at school events, excursions and camps, in a secure and timely manner.

Next Steps

Your Consent2Go access will activate on your child's commencement.

You do not need a username or password.

Whenever consent is required, you will receive an email with all the necessary details for your approval.

These emails will come from admin@mcbschools.com, please ensure you add this email address to your safe sender list to prevent it from going to your junk or spam folder.

Update Family Details

For any student and family detail updates please make these on Consent2Go. This can be accessed via the TIGS Portal.
